PROFESSIONAL EXPERIENCE

Practical experience through personal and educational projects

- Developed an online store with a responsive layout using HTML, CSS, and JavaScript, including a back-end component for processing user orders and form submissions.
- Created a SPA User Management application (pet project) using React.js, implementing user interaction logic, component-based architecture, and basic state management.
- Developed a landing website on WordPress using the Elementor page builder, including theme customization, content layout, and plugin integration. Implemented responsive design, user-friendly navigation, and optimized page performance across different devices and browsers.

EDUCATION

Khmelnitskyi National University

Bachelor of Science in Computer Engineering

Sept 2023 - Present
